3610PLC

Same as the 3610 but outfitted with a lens ring that emits a bright glow in the dark. The new generation photoluminescent material in the plastic absorbs the energy from any light source - fluorescent lights, the sun, or even the flashlight's own beam. No more fumbling in the dark for your flashlight. The Little Ed 3610PL is powered by 4 AA alkaline cells.

Color: YELLOW
