

POWER CORD | QUAIL P/N: 0109.012 | 1' 16/3 SJTW 105°C BLACK ICC ROJ TO IEC-60320-C13

- Our 0109 series features an ROJ with the IEC-60320-C13 Connector.
- These power cords are ideal for hard-wiring into your power source to provide electricity for your devices. The IEC-60320-C13 end is compatible with many devices and appliances that use the C14 inlet, including monitors, computers, printers, scanners, TVs, and sound systems.
- An ROJ, or Removed Outer Jacket, is the result of stripping the exterior jacket from the power cord and exposing the conductors for the purpose of hard-wiring the cord into your equipment. Our standard ROJ includes the removal of 2 inches (51mm) of jacket and of 1/4 inch (6mm) of conductor insulation.
- The 0109.012 carries the UL and C-UL approvals and is rated at 13A - 250V.
- This North American power cord can also be used in the following countries:

Bahamas	Jamaica
Barbados	Laos
Belize	Mexico
Canada	Micronesia
